COMPUTER BUSINESS CONSULTANTS ANNOUNCES NEW PARTNER

CLERMONT, FL (August 5, 2009) – Computer Business Consultants, a comprehensive Information Technology corporation with offices in Clermont, Florida, and Atlanta, Georgia, is pleased to announce Chad Bobbitt has been named partner in the firm.

Bobbitt brings over a decade of IT expertise to the organization, including senior leadership experience at Orlando-based McCree General Contractors & Architects. Bobbitt's focus at Computer Business Consultants will include managing the daily technical operations of the company, as well as overseeing their expert technical staff.

Bobbitt, a graduate of Lamar University in Texas, previously served as a consultant for i-Tech, one of Central Florida's leading IT consulting firms before joining McCree.

During his tenure at McCree General Contractors & Architects, Bobbitt oversaw the expansion of the IT department to encompass remote sites and construction locations as an integral part of the computer network, making McCree one of the most technology advanced commercial construction firms on the East coast. Under Bobbitt's leadership, McCree was able to streamline their entire IT operations to a centralized virtual environment making the entire organization efficient, saving both time and money.

"I have no doubt Chad's knowledge and proficiency will allow us to continue our phenomenal growth and sustain the high-level, quality work our clients have come to expect from us," said Clinton Pownall, President of Computer Business Consultants.

Computer Business Consultants is an innovative information technology services provider specializing in a comprehensive range of services for businesses both large and small. Founded in 1996, the company has offices in Clermont, Florida, and Atlanta, Georgia, and services clients around the world.
